# INDEX.

	PAGE
ALLEN, G. M. Rorquals of southern Newfoundland . . . . .	613
Amblystoma, Metamorphosis of . . . . .	88
American Society of Zoölogists, Proceedings of . . . . .	485
Amitosis in embryo of Fasciolaria . . . . .	869
Amœba, Physical imitations of . . . . .	625
Ancestry of Mammalia . . . . .	811
Andrews, E. A. Breeding habits of crayfish . . . . .	165
Apparatus for aerating liquids . . . . .	655
Arboreal ancestry of Mammalia . . . . .	811
BEECHER, C. E. . . . .	407
Bigelow, H. B. Sense of hearing in goldfish . . . . .	275
Birds, Bermudian . . . . .	555
— Classification of . . . . .	311, 833
Blatta, Deveipment of head of . . . . .	777
Bowditch, H. Bermudian birds . . . . .	555
Breathing valves of teleosts . . . . .	405
Breeding habits of crayfish . . . . .	165
CAMPBELL, D. H. Affinities of Ophioglossaceæ and Marsiliaceæ . . . . .	761
Cicindila, Distribution of . . . . .	643
Classification of birds . . . . .	311, 833
Cone Flower, Variation in . . . . .	427
Coniferales, Anatomy of . . . . .	331, 243, 523, 671
Correspondence . . . . .	88, 241, 405, 689
Crayfish, Breeding habits of . . . . .	165
Cushman, J. A. Localized stages in plants . . . . .	819
Cursorial adaptations in habits of mammals . . . . .	1
DAVIS, B. M. Studies of the plant cell . . . . .	367, 431, 571, 725

	PAGE
Davis, W. T. Hyla andersonii and Rana virgatipes at Lakehurst, N. J. . . . .	893
Desmognathus fusca, Early development of . . . . .	117
Development of Desmognathus fusca . . . . .	117
Diaptomus, New species of . . . . .	889
EASTMAN, C. R. Dentition of Rhynchodus and other fossil fishes . . . . .	295
— Fossil plumage . . . . .	667
— Vernacular names of animals	
Environment, Undetermined factors in . . . . .	285
FASCIOLARIA, Amitosis in embryo of . . . . .	869
Fossil fishes, Dentition of . . . . .	295
Fossil plumage . . . . .	667
GILL, THEO. Vernacular names of animals . . . . .	241
Goldfish, Sense of hearing in . . . . .	275
HAMINEA, Natural history of . . . . .	207
Hatcher, J. B. Princeton Patagonia expedition . . . . .	324
Head, Development of in Blatta . . . . .	777
Hearing, Sense of in goldfish . . . . .	275
— in spiders . . . . .	859
Heredity, Undetermined factors in . . . . .	285
Herrera, Correspondence . . . . .	88
Hr licka, A. Malar division . . . . .	361
— Parietal division . . . . .	301
Hyla andersonii at Lakehurst, N. J. . . . .	893
JACKSON, R. T. Charles Emerson Beecher . . . . .	407

	PAGE		PAGE
Jaggar, T. A., Jr. The eruption of Mount Pelée in 1851 . . . . .	51	Osborn, H. F. Reclassification of the Reptilia . . . . .	93
Jennings, H. S. Physical imitations of <i>Amœba</i> . . . . .	625	Osteology of <i>Pygopodes</i> . . . . .	13
Jordan D. S. Notes on recent fish literature . . . . .	471, 599	PARIETAL division . . . . .	301
— Transplanting of trout . . . . .	885	Pearse, A. S. New Species of <i>Diaptomus</i> . . . . .	889
LIQUIDS, Apparatus for aerating . . . . .	655	Peirce, J. J. Undetermined factors in environment and heredity . . . . .	285
Localized stages in plants . . . . .	819	Penhallow, D. P. Anatomy of the North American Coniferales . . . . .	243, 331, 523, 691
Lucas, F. C. Variation in ray flowers of <i>Rudbeckia</i> . . . . .	427	<i>Photinus marginales</i> , Light organs of . . . . .	127
Lull, R. S. Cursorial adaptations in mammals . . . . .	1	Plant Cell, Studies of . . . . .	367, 431, 725
MALAR division . . . . .	361	Plants, Localized stages in . . . . .	819
Mammalia, Arboreal ancestry of . . . . .	811	Plumage, Fossil . . . . .	669
Mammals, Cursorial adaptations in habits of . . . . .	1	Pritchett, Annie H. Hearing and smell in spiders . . . . .	859
Mammals and reptiles in Patagonia, Distribution of . . . . .	324	Proceedings American Society of Zoölogists . . . . .	485
Man, Influence of on distribution of reptiles and mammals in Patagonia . . . . .	324	Publications received . . . . .	89, 479, 917
Marsiliaceæ, Affinities of . . . . .	761	<i>Pygopodes</i> , Osteology and systematic position of . . . . .	13
Mast, S. O. Apparatus for aerating liquids . . . . .	655	RANA <i>virgatipes</i> at Lakehurst, N. J. . . . .	893
Matthew, W. D. Arboreal ancestry of the Mammalia . . . . .	811	Reclassification of the Reptilia . . . . .	93
Metamorphosis of <i>Amblystoma</i> . . . . .	88	Reptilia, Reclassification of . . . . .	93
Metcalf, M. M. <i>Neritina</i> . . . . .	565	Reptiles and mammals in Patagonia, Distribution of . . . . .	524
Mitchell, Evelyn G. Oral breathing valves of teleosts . . . . .	153, 405	Reviews:	
Mount Pelée, The eruption of in 1851 . . . . .	51	Annandale and Robinson's <i>Fasciculi Malayenses</i> . . . . .	399
NERITINA <i>virginica</i> . . . . .	565	Bateson and Saunder's Report on Roy. Soc. Evolution Committee . . . . .	322
Notes and Literature:		Bœhm's Sino-Australian Continent . . . . .	676
Biology . . . . .	227, 321, 397	Boulenger on Classification of Fishes . . . . .	597
Botany, 76, 230, 327, 402, 474, 608, 679 901.		Burkitt, Steven's and Hill's Agriculture for Beginners . . . . .	901
Climatology . . . . .	899	Campbell's Ferns . . . . .	608
Palæontology . . . . .	605, 677	Coues's Key to N. A. Birds . . . . .	596
Psychology . . . . .	895	Coulter and Chamberlain's Morphology of Angiosperms . . . . .	76
Zoölogy . . . . .	75, 324, 399, 471, 595, 673, 897.	Coville and MacDougal's Desert Laboratory . . . . .	327
OPHIOGLOSSACEÆ, Affinities of . . . . .	761		
Osborn, H. L. Amitosis in embryo of <i>Fasciolaria</i> . . . . .	860		

# INDEX.

V

	PAGE
Davison's Anatomy of the Cat	400
Dodge's General Zoölogy	595
Eastman's Translation of Zittel	605
Gardiner's Maldives and Laccadives	326, 898
Grant's Origin of Mammals of N. A.	677
Guyer's Spermatogenesis of Pigeons	227
Hays' Exercises in Agriculture	901
Jenning's Monograph of the Rattulidae	325
Miller's Criminal Classes	896
Montgomery's Gordiacea	326
Nile's Bog-Trotting for Orchids	901
Plate's Darwin's Theory of Natural Selection	321
Pompeckji's Life of Zittel	677
Porter's Flora of Pennsylvania	608
Redfield's Control of Heredity	228
Reese's Vertebrate Embryology	673
Walther's Solnhofen Fauna	677
Walton's Hermit's Wild Friends	675
Ward's Translation of Hann	899
Weed and Dearborn's Birds in their Relation to Man	75
Whiting's Walks in New England	323
Williamson's Fixation of Crab's eggs	897
Wundt's Natural Science and Psychology	895

	PAGE
RHYNCHODUS, Dentition of	295
Riley, W. A. Embryological development of the skeleton of the head of Blatta	777
Rorquals of Southern Newfoundland	613
Rudbeckia, Variation in	427
SHUFELDT, R. W. Classification of birds	311, 833
— Families and higher groups of birds	833
— Osteology and Systematic position of Pygopodes	13
Smallwood, W. M. Natural history of Haminea solitaria Say	207
Smell, Sense of in spiders	859
Spiders, Hearing and smell in	859
TELEOSTS, Oral breathing valves of	153
Townsend, Anne B. The Histology of the light organs of Photinus marginalis	127
Transplanting of trout	885
Trout, Transplanting of	885
VARIATION in Neritina	565
Vernacular names of animals	241, 689
WICKHAM, H. F. Influence of mutations of Pleistocene Lakes on distribution of Cicindila	643
Wilder, H. H. The early development of Desmognathus fusca	117
ZOÖLOGISTS, American Society, Proceedings of	485
